

## Construction Interior/Exterior Benefits

---

### *Don't let this highly visible space go to waste!*

- Interior storefront advertising, AutoTize wraps digital vinyl graphics during 4-12 week construction period on temporary storefronts. Our service will help in branding/promote store name, logo, product & service, store open or reopening to public and provide visual representations appropriate to the stores image & offering.
- Exterior jobsite advertising, AutoTize will wrap digital vinyl graphics on construction barricades, and 10'x 20' construction job trailers. This is a highly visible way to promote new buildings grand opening, building design, amenities and leasing/sales information to the public during 1 month to 2-year development stage.

### *Get attention and delivery your message quickly!*

- Building Mural & Banner applications, when sheer size alone is your goal. AutoTize handles giant graphics on buildings as well as interior murals for retail applications.
- Window Graphics provide an excellent space to promote your seasonal advertising campaign or company's services to the public. These Graphics are with window vision that allows visibility to the outside.

### *Create a mood and environment!*

- Exterior Parking Light Pole Banner's, take advantage of this high traffic space to promote seasonal campaigns or specific products to the public.
- Floor Graphics interior floor and exterior sidewalk applications.

### *Capture the attention of potential customers!*

- All AutoTize applications can be applied long term or short term.
- **See Autotize for Ancillary Income Opportunities for your properties.** *Let AutoTize provide Property Owner with Ancillary Income by selling advertising on temporary storefronts, construction barricades, window graphics, parking banners and floor graphics to other retail stores or vendors. Management may also want to use AutoTize services on your temporary interior/exterior blank space to promote seasonal or individual mall events!*

### *Change "just looking" into "just look what I bought"*
